UPPITY WOMEN IN HISTORY FRIDAY, MARCH 3, 11:00

Join us as we celebrate Women's History Month with local author Vicki Leon. She will share her adventures in researching and writing her work! Her fascination with the unsung women of long ago continues to win a growing audience for her *Uppity Women* series.

The series contains the true tales of irrepressible women who broke all kinds of barriers. They invented. They created. They cured. They ran cities and businesses, bankrolled charities and religions. Some defied racism to become activists. Some defied society to become pirates.
Adult.

THE LIFE AND TIMES OF ROSIE THE RIVETER: MOVIE SATURDAY, MARCH 4, 1:00

Watch this award-winning documentary about working women during World War II. The story is told by five former "Rosies" who recall their histories of working during the war.

The women discuss working in previously all male factories and plants and their reactions to giving up jobs for the returning GIs. Their testimony is illustrated with rare film footage, photographs, posters, newsreels, and music from the "Rosie" period.

After the movie, you are invited to share your own or your family's "Rosie" and World War II stories. Refreshments will be served. All ages.
